

EST. 2006 PHOTO + MOTION

SIMULACRA STUDIO

STUDIO 4

THE PROP MAKING
WORKSHOP

OVERVIEW

Our on site prop making workshop is adjacent to Studio One.

Hire the workshop with tools for your own builds, or with our staff to design and create to your requirement.

We have vast experience making props and sets for photo shoots and larger scale installations for festivals, touring theatre and other productions.

We're accustomed to working with wood, metal, electrics, light and sound and always have an eco friendly approach, utilising reclaimed and recycled materials whenever possible.

We pride ourselves on saying 'yes' to builds other prop makers have said they can't do!
Get in touch to discuss your project or set build.
